Dealers in Stocks Still Selling Sugar and Whisky Trusts.

Bulk of the Trading Monopolized by the Industrials-Indianapolis Track Grain Bids Unchanged.

At New York yesterday money on call was easy at 1 per cent.

Prime mercantile paper, 2% @5 per cent. Sterling exchange was firm with actual business in bankers' bills at \$4.88% @4.89 for demand, and at \$4.87\4@4.87\2 for sixtydays; posted rates, \$4.88\\@4.90; commercial bills,

\$4.861/2@4.861/4. Silven certificates, 64@65c. Bar silver closed at 63%c per ounce; at London, 28%d. Total sales of stocks amounted to 168,591 shares, Sugar leading with 41,600 and Whisky Trust next with 26,000. The chief interest in the Stock Exchange was centered in Sugar, Distilling, General Electric, Chicago, Burlington & Quincy and St. Paul. Lead was moderately active, but the rest of the list was intensely dull. The shares named are given in the order of their activity, which places Sugar in the lead. This usually mercurial property was exceptionally steady. After a loss of 11/4 at the opening on a heavy pressure to sell, the fluctuations during the rest of the day were confined within a 1 per cent. limit. The break was evidently a feint on the part of the Sugar pool to induce the bears to increase the short interest, for it was followed by offerings of small lots by pool brokers, the full decline being made on sales of only about 1,500 shares. Some the shorts began to cover at the decline, and their purchases caused a rally of % per cent. Renewed selling caused a reaction of %, which was followed by a recovery of 1 per cent., of which % was lost in the final trading, making a decline of l on the day; the preferred lost ½. A large block of Distilling was placed on the market for sale, and there being no supporting orders, the stock broke 1½ to 23½. No depressing rumors were current to account for the sales, but there was no particular desire on the part of any one to buy the stock and the closing price was within 1/4 of the lowest point touched. General Electric opened 1/8 higher and then sagged off gradually on steady sales until a decline of 1½ had been recorded. The sales were believed to be of long stock, and in the absence of anything tangible to account therefor the old story of an opposition company cutting into the General Electric was renewed. There was some buying of the shares in the late dealings,

cline in wheat affected the grangers unfa-vorably, and there were selling orders from the West, based presumably on these conditions. Burlington was also sold by Boston on a revival of the rumors touching the decrease in the dividend rate. The decline on the day, however, only ranged from 1/4 to 1/4, the latter in Northwestern. National Lead fell off 11/4 in the morning trading on sales of stock acquired in the belief that a dividend was to be declared, a rumor to that effect having been circulated some days ago. A rally of % was made in the late transactions. New York Central declined 1%, none of which was recovered. One hundred shares were sold at 60, 14 below the current quotation. Minneapolis & St. Louis preferred and Metropolitan Con-dist declined 1/2, while Pullman rose 11/4 and Interior Conduit 23/8. In the rest of the mar-ket the speculation was dull, and the changes on the day merely fractional. The

and the closing price was % above the low-

est. Reports of rate cutting and the de-

iness, the principal changes being: Advances-Chicago & Milwaukee firsts, 11/2; Minneapolis & St. Louis firsts and People's Gas of Chicago firsts each 1 per cent. De-clines-St. Louis & San Francisco seconds, class C, 3; St. Louis & San Francisco sec-onds, class B, and Wabash debentures, series B, each 14; Northern Pacific seconds, 2. Baltimore & Ohio Southwestern income firsts, series A, sold at 251/2, against 2816 on April 12.

The bond market was firm on a small bus-

market closed fairly steady.

Government bonds were steady. State bonds were quiet. The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the range of quotations: Open- High- Low- Clos-

LOCAL GRAIN AND PRODUCE.

Trade Fair, Collections Easy and Lower Prices. On the wholesale streets and on Commission row a fair volume of trade was

in progress yesterday. Prices on new potatoes, strawbertles, tomatoes, cucumbers and garden truck generally were lower. Eggs and butter are both weak on large receipts. Poultry was steady. Hardware men are having a good trade, and druggists speak of business as good. Grocers are fairly busy. The hide market is tame at unchanged prices. Provisions are active and prices more steady. The locad grain market is sluggish, attendance on 'Change small and the bidding spiritless. All receipts are readily taken at the following prices, track:

Rev. Anton Arbeiter, a Returned Missionary, Gives Some Interesting Facts.

NEW YORK, May 9 .- Captain Hansen, of the Norwegian steamer John Wilson, from Bluefields, reports that the United States steamer San Franc' co and British man-of-war Magicienne were in port when he sailed. A large body of Nicaraguan troops was in the city and the government was rapidly building a fort on the bluff. Although matters were quiet, conditions were such that trouble might occur at any

On board the John Wilson was Rev. Anton Arbeiter, a missionary en route to Germany. Mr. Arbeiter says that so long as the United States or British war ships remain on the coast the people of Bluefields will be safe from Nicaraguan persecution, but should the ships be removed or, under the treaty, either country order the Nicaraguans out of the resrevation, the worst is feared. "I was assured," said Mr. Arbeiter, "by persons who could not be misinformed, that positive orders had been given the Nicaraguan soldiers to set fire to the town of Bluefields if they are compelled to evacuate it, no matter which country enforces the evacuation, or should England and America act together. The people, knowing that the Nicaraguans feel that this will be the result if the latter cannot obtain what they propose (to hold Bluefields for the revenues to be obtained there), they will destroy it. They are jealous of its growth closing at 591/2c; June, 601/4@601/2c, closing at over the port of Greytown. By the treaty, Greytown was to be a free port, but despite the treaty the Nicaraguans have been raising duties and port charges from year to year until they have become almost prohibitory, and the business of Greytown has been nearly destroyed, Bluefields is looming up. The business tione there is very large and four of five steamships load there every week, using large launches to carry cargoes from ship to store and vice versa. The banana trade is especially heavy. The Nicaraguans want all the revenue obtained from the Mosquito shore trade, and without a shadow of right came down and seized the place. If they are allowed to retain it, it will be a sad future for all concerned, as they neither respect the law nor their word. They are cruel murderers and irreligious. There are ten thousand of the natives. They are quiet, tractable, and are being grounded and strengthened in the Christian faith under Protestant teaching under the beneficent rule of the chief of Mosquitos, and if Nicaraguan misrule takes possession there will be no more respect for the Sabbath, for right or for life or justice. Only the Sunday before i came way two of them were shot and killed without provocation, but simply because they did not begin work when they had promised to do so. The soldiers who took possession of the town hall and occupied it as a barracks, are rapidly destroving its interior, as they did the books and other property contained therein when they took possession. The townspeople, most of whom are Americans, are overawed because it is futile for them to do anything against an organized body like the soldiers, and their only protection is in the strength of England and the United States, and they are insisting on the car-rying out of the treaty, which gives the Mosquitos their own government and own

A WOMAN'S FATAL FALL.

She Used an Ironing Board for a Bridge and It Broke.

NEW YORK, May 9 .- Mrs. Emily Rechsteiner and Mrs. Rosalie Huerlinan were tenants of the fourth-floor flat at Nos. 496 and 498 Brooke avenue, which faced each other across a narrow air shaft. To pass from one flat to another, however, it was necessary to walk down three flights of stairs and up three flights. The women became great friends, and were not content to chat across the area, but exchanged frequent visits. The stair-climbing was a serious obstacle to their intimacy, and to overcome it Mrs. Rechsteiner laid an ironing board from her window to that or Mrs. Huerlinan. For several days the women passed to and fro over the extemporized and fragile bridge. To-day, however, as Mrs. Rechsteiner was returning to her own apartment the board broke and she fell to the bottom of the shaft. striking upon her head on the flagstones and dashing out her brains. She was twenty-six years old and pretty.

WHEAT HAS FRIENDS

Crop Damage and Bullish Foreign Reports Caused It.

An Increase of 3-8c in the Price of May with Corn and Oats Higher and Provisions Lower.

CHICAGO, May 9. - Wheat had more friends to-day, and closed %c higher. Crop damage in California and rumors of Argentine financial troubles caused a moderately bullish feeling, but free selling, lower cables and large Northwestern receipts prevented a marked advance. Corn closed 1/2c higher, but provisions finished lower all

In wheat opening transactions were at a trifle advance, and after rallying %@1/2c, worked back %c, rallied %@4c, changed some, ruled firm and closed as stated. The price was advanced early on the California crop damage and the Argentine financial troubles, it being supposed that with a panic at the latter place wheat shipments would be next to impossible, owing to the difficulty in negotiating exchange. Cables were disappointing and Northwestern receipts were about twice as large as a year ago, both of which were factors in checking any further advance. A prominent local professional, who is supposed to have covered considerable this week, was again a pronounced seller to-day, and these offerings, while fairly well absorbed, had the effect of retarding the advance.

fluctuations within %c range. The feeling was rather bullish. To-day's receipts were only 102 cars, and seemed to be the principal factor that was productive of strength. The action of oats also helped the price.

In oats there was a good trade and a stronger and higher market. The buying was liberal, and prices, after opening lac to lac higher, advanced 1461/2c more. Larger offerings later created weakness, and June receded %c and July and September %c from the top figures and closed quiet. With a decline in prices for live hogs at the yards, provisions opened weak and low-er, and then fluctuated within a very nar-row range during the first hour of the session, with the tendency downward. Later on the offerings became more free, the packers selling. A moderate break was the result in the absence of any support. Shortly before the end of the session there was a partial reaction on a little buying, with the closing steady all around. Compared with last night, July pork is 121/2c, July lard .05c and July ribs .05c lower. Estimated receipts for to-morrow are: Wheat, 50 cars; corn, 140 cars; oats, 210 cars; hogs, 23,000 head.
